

**WARNING.**

We wish to caution all users of Simmons Liver Regulator on a subject of the deepest interest and importance to their health and their lives. The subject proprietors and makers of Simmons Liver Regulator learn that customers are often deceived by the name of the package or bottle, that it is not Simmons Liver Regulator. No one else makes, or has made, Simmons Liver Regulator, or anything called Simmons Liver Regulator, but J. H. Zeller & Co., and no medicine made by anyone else is the same. We alone can put it up and we cannot be responsible, if other medicines represented as the same do not help you as you are led to expect they will. Bear this fact well in mind, if you have been in the habit of using a medicine which you supposed to be Simmons Liver Regulator, because the name was somewhat like it, and the package did not have the word Regulator on it, you have been imposed upon and have not been taking Simmons Liver Regulator at all. The Regulator has been favorably known for many years, and all who use it know how necessary it is for Fever and Ague, Bilious Fever, Constipation, Headache, Dizziness, and all disorders arising from a Disordered Liver.

We ask you to look for yourselves, and see that Simmons Liver Regulator, which you can readily distinguish by the Red Z on wrapper, and by our name, is the only medicine called Simmons Liver Regulator.

J. H. ZELLER & CO.

**STATE DEMOCRATIC COMMITTEE.**

The Democratic State Committee met Thursday at Lexington, Maj. P. P. Johnston, chairman, presiding. The entire committee was present in person or by proxy, except Mr. Jas. Garnett, First District, and Dr. J. R. Looter Eleventh District. State Senator Wm. Goebel, member at large, was also present. The main purpose of the meeting was to perfect arrangements for conducting the ensuing campaign, and it was decided not to name a campaign steering committee, but to leave the whole management of the fight in the hands of the chairman of the State Central Committee, Maj. P. P. Johnston, together with Senator Goebel, Chairman of the Executive Committee, and such other persons as they might select; and that Maj. Johnston have full control of the contest, and also have the power to select headquarters and appoint a secretary.

Maj. Johnston's powers were still further amplified so as to authorize him to decide all questions in the event of a deadlock, or any dispute in senatorial, legislative or city committees.

A resolution was passed granting cities of the fourth and fifth classes separate committees from the county.

The work of the committee was strictly routine and everything went through without any notable incident.

Hon. Henry L. Martin has notified the voters of his senatorial district that he will not allow his name to go under the republican device on the ballot. Now let Mr. Martin withdraw and give a clear track to the democratic nominee and all will be forgiven.—Stanford Journal.

**LANCASTER, THE HOME OF SOLDIERS, STATESMEN, BARDS AND WILL OWSELY.**

In her department of the Lexington Argonaut, Mr. E. R. Potter, speaking of her recent visit to Lancaster, says:

I have rambled—no, steamed over—the hills of my childhood; shaken the hands of a hundred or more of "mine own familiar friends," dined at hospitable boards where several generations swelled the circle. "Green Pastures and Piccadilly" have clamored with equal importunity for a greeting. The scenes of my childhood have not all made their comings with the dis-patched willow, but it is none the less true that nature is written there. The old homestead, now a flourishing college, bristled with memories from turret to foundation, and was a potent to express, "Oh, would I were a girl again."

Lancaster was the birthplace and home of many distinguished men, and was originally chosen as the Capital Center of the difference of a single vote, deciding in favor of Danville. The little hillside city was situated so as to draw patronage from the bluegrass and from the mountains.

Years ago among the 90's of the 18th century Henry Clay passed through on horseback from Virginia and stopped at the "Wallace X road," to take a corn-bread luncheon with the pioneers who were making the clearing for the first log courthouse. The illustrations commoner paid two other visits to the town, one of them in 1820, when he was present at the wedding of the writer's parents.

Governors Garrard, Owsley, Letcher and Bradley hailed from Lancaster. Also the Hon. William Bridges, Chief Justice George Robertson, General Wm. Jennings of the Revolutionary War, Col. Wm. Jennings of 1812, Captain Wm. Jennings of the Mexican and Civil Wars, members of the McKee family, and other statesmen and soldiers prominent in the archives of the little city. Territorial governors, foreign ministers and consuls, teachers, inventors and men of parts, swell the list. Commercially Lancaster is an unimportant village, beautiful only for its suburbs and surrounding country. Historically she has a noble record.

Gov. Bradley has received numerous protests from people in the neighborhood of Russellville, against allowing the Cherokee Indians to enter Kentucky bearing arms, on a visit to the grave of their dead Chief. The letters claim that the Cherokees are wholly untrustworthy and as they propose to march through the country, will commit many depredations. Gov. Bradley doubts his authority to interfere with the peaceful entry of such a body from another State.

**HERD OF HOGS FOUND IN A CAVE.**

The Harrodsburg Sayings prints the following account of a cave explored last week near that city:

"For many years it has been a well demonstrated fact that most of the town of Harrodsburg is built over a cavern. There is another cave Northeast of town that has been explored two or three miles. A third cavern has just been discovered and some strange facts are connected with it. Thursday County Surveyor Hendren accompanied by Messrs. Edward C. Jones, William and Dan Conder, John Woods, Stewart Latta and William Jones by means of a ladder, went down twenty feet and found the real mouth of the cave, elliptical in form, two feet by three. The top of the sink hole is also elliptical, ten feet by twenty, and the hole grows gradually smaller. Through the aperture of two feet by three they all crawled on their hands and knees. They had thus to crawl for fifty yards before they could stand erect. There a beautiful sight met their eyes. Symmetrically formed stalactites and stalagmites gracefully adorned both the roof and floor of the cave.

"They found no gold nor silver, but indications of a magnetic metal. Mr. Hendren brought out a human skeleton that is far above the medium in height. They also found a great number of the bones of hogs. And the strangest of them all was in the level of the cave. There a beautiful sight met their eyes. Symmetrically formed stalactites and stalagmites gracefully adorned both the roof and floor of the cave.
